RE: USA v Banks, 15-cr-168

To Judge Conti and the Law Clerk,

Hello! I write you in your capacity as Chief Judge of the Court. I have some serious concerns about the above prosecution. After complaining for over 10 years (while in prison mostly) about the fact that I was setup by FBI special agent Timothy Pivnichny see details in Banks v. Pivnichny at google.com In 2015 the FBI (20 agents) arrested me on a Grand Jury Indictment of cyberstalking which the U.S. Marshalls at NECC have listed as "harassing communications". The 20 FBI agents had a search warrant that contained no Affidavit (it was not attached!), I did not give consent for the search. They took more electronic items (2 computers, a Kindle tablet, my cell phone, wallet and keys) they have not even returned the items from the supervised release violation search I had in front of your court even though you told them to. The FBI continues to come to my home

and steal from me. I want all my property back. On the morning of the search the FBI called (a woman who said she was calling for Jean Lengford) on August 7, 2015 and told me I could come in and pick up the items at 10am, a cruel joke, because they arrested me on the front porch at 10am. They never returned the items. Also, they still have the Ferrari. I now have documents showing this which I obtained from FBI headquarters in a FOIA request. So they lied to the court. The Indictment in 15-cr-168 was changed. The first one says Plumcherry is an agent of the Federal Bureau of Investigation see arraignment & first appearance transcripts of 8/7/15 and 8/11/15. The one I have now states he is an individual. They are both "Indictments". They can't do that! They are misusing Grand Jury subpoenas. The Grand Jury subpoena to Sprint shows the U.S. Atty's office sent and received the documents. only the Grand Jury can issue a Grand Jury subpoena because it is an independent investigative body. At the arraignment I put on the record that the attorney Adrian Roe is not authorized to file my motions. "I want my 70 day speedy trial". I asked Roe to file a notice of appeal of the bond setting. Instead, without my consent Roe on Aug 26, 15 filed a Motion for Reconsideration. On Sept 16, 2015

Judge Hornak issued an order stopping the Speedy Trial Clock. At the first appearance AUSA Celler filed the Dr. Wekstein Report you ordered in Nov 2013. In previous motion he asked for another evaluation! I never authorized this. I'm tired of these court officers trying to make life I'm "crazy" and slandering and libeling me all over pittsburgh and the world. The facts of electronic harassment are this.

* everyone on the internet knows that the CIA is simulating schizophrenia in targeted individuals by using synthetic telepathy.

* I can now prove what I'm saying by subpoenaing a CIA Scientist named Dr. Robert Duncan and author of New Breed & Guinea pigs Dr. John Hall who are both available to testify. See Dr. John Hall and Dr. Robert Duncan Interviews at youtube.com. Duncan is a CIA Scientist who worked on the technology I complained about.

* The CIA on its own website talks about synthetic telepathy see cia.gov "Telepathic Behavior Modification" which is the same technology employed in operation Desert Storm see google.com "Voice of God weapon" - Can which IRAC soldiers were told inside their heads

That "Allah wants you to surrender") The CIA most recently has used this technology to cause chaos in the USA by among other things murdering innocent US citizens. See USA today cover story of 8/17/15? on the shooting of Allison Parker a reporter in Roanoke, VA by Vester Flannigan. In that article Flannigan stated "Jehovah told me to Act;" thus the CIA's "Voice of God" weapon was employed. I note that the recent rash of "random" shootings on college campuses and the like is apparently to push a US govt gun control agenda. The US courts must step up and stop calling claims of CIA electronic harassment delusional claims. These claims of torture are real. One report states that there are now over 300,000 US citizens who are Targeted Individuals. See Freedom from Covert Harassment at ffeh.com. Even Aaron Alexis the Navy Seal Systems Command was a Target. He described in vivid detail the technology before he went on a shooting spree. See Video on youtube.com (#1)

I asked Judge Hornak at the Bond hearing to issue a protective order against the CIA and its director

John Brennan and I hope that he will act.
 Judge Hornak took the matter under advisement.
 * My point of this letter is to stop the delay
 in this case. I have to be released immediately.
 I have not had a shower since August 7, 2015.
 I am fed up with being a Video game for
 officials that are supposed to be protecting not
 violating my rights. My trial was supposed to
 commence on October 16, 2015 now it seems
 because according to Wetters that after 10
 long years planning has finally been investigated.
 The government does not want a trial because
 they know planning cannot testify. Instead
 they tried to dope me up with psych medication
 when only Director Brennan needs these meds not
 me.

* This Court and other Courts unfortunately
 must employ electronic counter measures to
 stop the CIA ELF signals in the Courthouse.
 This is because Judges, Juries and others of the
 Court would have no way of knowing if the
 CIA was employing this Technology to influence them
 and their decisions. The only way to bring
 impartiality back into the Judiciary is to block the

Signal because the CIA in the past had already shown that it will not only target U.S. citizens but also court officers. See *Simis v. CIA* (DC Dist); *CIA v. Sims* — US — (); Also see wikipedia at "MK Ultra" footnotes (stating that a U.S. Marshall sued the CIA because they employed drugs and experimented on him without his knowledge or consent).

* Atty Adrian Roe also told me that he could not represent me unless I pled guilty. In Court he told Judge Hornak he never said it. Roe told me I was a career offender, another lie. In Court Judge Hornak brushed this off. Roe told me I was facing 10 years on a charge that carried 5. Roe refused to accept any numerous calls to him he hasn't accepted one in violation of the ABA Code of Conduct; he hasn't kept in touch with his client. Roe entered a plea without my consent then later drilled me like he was interrogating me to admit something. "harassment" carried 90 days in the state. My non-violent offense has already had me in prison at \$35,000 a year for the tax payer for nearly 4 months.

Please respond in writing to my allegations. Thanks.
